

27 January 1956

MEMORANDUM FOR: Deputy Director (Support)

SUBJECT : Language Resources Program

1. We have had some reservations about the legal propriety of paying "incentive awards" under the proposed language resources program. While informal discussions with representatives of the GAO indicated that a favorable opinion might be obtained from the Comptroller General, a formal submission will be necessary.

2. Attached hereto is a draft of such submission for the Director's signature.

3. It is our understanding from Mr. Sargent that the Foreign Service does not yet have an equivalent program and that they may have to seek the appropriate authority through legislation.
